About the presenter

P. Todd Korthuis, MD, MPH is Professor of Medicine and Public Health at Oregon Health & Science University (OHSU) where he serves as Chief of Addiction Medicine and Program Director for the OHSU Addiction Medicine Fellowship. His main research focus is on integrating addiction treatments into diverse healthcare settings. He serves as co-principal investigator of the Western States Node of the NIDA Clinical Trials Network (CTN) and has led several NIH studies of buprenorphine and extended-release naltrexone integration in HIV primary care settings. His expertise is based upon work as a practicing general internist, an addiction medicine provider, and a clinical research scientist.
